TO: Elected Officials of
Cities, Counties and Regional Organizations

The Council on Intergovernmental Relations at its meeting on June 9, requested the staff to review the existing criteria used in establishing regional planning districts within the State. The Council, in 1969, established nine sub-state districts following an intensive study and survey. As a part of the review of the existing criteria, we are requesting your comments through the attached questionnaire, to aid us in our review.

Thank you for your prompt attention to this matter.

Sincerely,
